

This is up to you now, to bring freedom back to Palmers citizens.

Preferably by way of the open town meetings with selectmen.

Giving the people the right to vote for or against any new or old law, or ordinance, or to omit or change any existing law.

To have this government be all about the People, and not just the nine individual town councilors.

To give the power and control back to the people.

If by any chance it does not resort to going back to town meetings, and the existing charter stays in place, then, it will need to be drastically changed. All ordinances will need an overhaul.

The existing ordinances take away the freedoms of the citizens to make informed decisions for themselves.

AND; To change all the ordinances that give total control to the nine charter members.
