OFFICE OF THE BUILDING INSPECTOR

APPLICATION FOR A PERMIT TO BUILD A BARN OR GARAGE

Please complete the following questions in regards to your proposed addition. A plot plan done by a registered land surveyor or engineer certified in the state of Massachusetts is required. The plot plan must show dimensions of the lot, existing building, proposed additions and the distances to all boundaries from the new construction. A detailed set of plans is also required.

Approval from the Conservation Commission must also be received prior to the issuance of a permit to be sure that you will not be building in a wetland or regulated area. Please have a commission member sign below *before* returning this application.

Conservation Approval _____

****If construction is begun prior to receiving a permit, the fees will be doubled and fines will be imposed.***
