

MPIC Minutes for October 17, 2023

Attendance: Dave Golden, Amber Kumpulanian (Chair), Nick Zeo, Patience Hartley, Jessica Sizer (Town Council)

Meeting began at 6:09pm

The committee welcomed new member Jessica Sizer

The committee accepted the minutes from 9/13

The committee discussed the article in the journal and many of the misleading facts that were presented there regarding water district consolidation. Amber will be following up with Bondsville regarding the report that was supposed to be sent out.

Jessica went through some of the steps the Town Council has been taking towards trying to get the districts to meet all together. She reviewed how the districts would need a special act to consolidate and that state senators and representatives would have to be involved. Jessica said she would look to see if there are any documents regarding how much debt each district is carrying. We know quality and pricing are still very discussed issues on town forums.

The committee reviewed the changes to the matrix for conservation and changes were made.

Next the committee will look at trying to get the school departments in for a meeting on November 8th.

Meeting ended at 7:17pm
