

Palmer Water District # 1

*10 Walnut Street
Palmer, Massachusetts 01069
1-413-283-8411*

**PROTECTION OF YOUR OWN HOME AND YOUR NEIGHBORS
FROM CROSS CONNECTIONS**

CAUSED BY

YOUR GARDEN HOSE CONNECTIONS

AND

LAWN IRRIGATION SYSTEMS

The Palmer Water District recommends the installation of backflow prevention devices, such as a low cost Hose Bib Vacuum Breaker, for all inside and outside hose connections. You can purchase these devices at a hardware or plumbing retailer. On Lawn and Yard Irrigation System a properly installed Backflow Preventer must be evaluated and installed to meet Plumbing Code and Massachusetts Cross Connection Control Regulations.

or additional information, on this critical protection step, please contact Superintendent Ammann, 413-283-8411.
