

Town of Palmer
DEPARTMENT OF PUBLIC WORKS
1015 Bridge Street, Palmer, MA 01069
413- 283-2615

Wastewater Plant FY2025 Sewer bills:

Fiscal year 2024- EDU= \$610.00 for the year, \$305.00 billed twice.
Fiscal year 2025- EDU= \$720.00 for the year, \$360.00 billed twice.

The plant was constructed in 1979 and is now in need of updates to some major components of the wastewater treatment facility infrastructure and process equipment, as well as health and safety updates. In addition, a new water sampling requirement has been issued by the EPA which contributes to the additional \$110/EDU per year increase. Please see the list of major projects below:

- New roof on the Main Plant on Norbell St. including 4 sewer pump stations throughout town.
- New Boiler at the wastewater treatment plant.
- Design and planning allocation for removal of the chlorine treatment process and replacing it with the process of Ultraviolet offering a much safer process for employees and residents.
- Design and planning allocation for the replacement of our 25-year-old belt filter press, we will be replacing this press with a Centrifuge, this will allow us to reduce the waste hauling expenses in years to follow.

If you would like to request any additional information please contact, Department of Public Works at 413-283-2615 or Wastewater Plant at 413-283-2671 during normal business hours, 7am-330pm, M-F.
