

MPIC Minutes for April 5th, 2023

Attendance: Dave Golden, Timothy Cienciwa (chair), Amber Kumpulanian (secretary), Chris Connolly (superintendent for Palmer Water District)

Absent: Mark Caci, Michael Dee

Meeting start: 6:03pm

The minutes were approved from the last meetings.

Timothy suggested that since Mark will not be continuing with this committee that we should have 2-3 citizens with one from the town council. Timothy said we should put a facebook post up to attract members.

Nick explained how water departments and the lack of communication between them are holding up development. Nick noted this from the Conservation Commissions meeting from that week.

Amber presented examples of styles of documents to keep track of each department they meet with. The committee agreed that a matrix can be done for each department.

As far as the town council reports, the committee agreed to keep it concise and focused on the barriers and what can be done to move things forward.

Amber agreed to make a template and also to do the matrix for the historical and recreational department meetings. Dave will do the matrix for the water boards.

Timothy will talk to the council about a date for the report and also about members of council joining the committee.

Amber will send invites to both the Thorndike and Bondsville for May 31st.

The committee agreed to no meeting on the 17th of May.

Meeting ended at 7:17pm
